Firewall

Protect yourself from hackers. Secure your PC with a 100% free firewall download. Get the full version f

The Windows Firewall (both XP and Vista) is worse than useless, it gives you a false sense of security

incoming *and* *out*

traffic. That means if malware has compromised your PC, it is able to

- Supports Windows XP and Vista
- Filters both ingoing *and* outgoing traffic!
- Keeps hackers out and your private info inside.
- Works great with VIPRE Antivirus + Antispyware
- Easy to use and does not slow down your PC!
- 32-bit only (64-bit support coming soon)
